CentaDesk.com

Dear Sir,

APP Development Proposal

At CENTADESK we are aware that creating client-oriented software takes a mixture of technical excellence and clear communication and our firm hires only the very best to ensure you receive both. We know that every client is unique and we strive to deliver an individual, innovative and affordable proposal every time and to follow it through with an outstanding delivery which is both on time and within budget.

We have over the years excelled in this area and our previous clients are happy with our services. You may also wish to review our website at <https://centadesk.com> to learn more about our organization.

We also pride ourselves on our after-sales client-care including our guarantees, staff-training and onsite and offsite support.

Finally, we realize that you are very busy and want to thank you in advance for your time spent reviewing our proposal.

Yours Truly,

Christian Chika (Director)
08035249716

OVERVIEW

The purpose of this proposal is to outline the key features and components for the development of a website for the local government. The website aims to serve as an informative platform that will provide essential information and services to residents, businesses, and visitors in our community. By creating a user-friendly and accessible website, we aim to enhance communication, transparency, and engagement with our constituents.

Key Features of the Website:

Home Page:

Welcoming and visually appealing landing page with the local government's logo and key contact information.

Highlight important announcements, upcoming events, and news relevant to the community.

About Us:

A comprehensive section describing the history, mission, and vision of the local government.

Introduce the key officials and departments with brief bios and contact details.

Provide links to relevant local government documents, such as ordinances and policies.

Services and Departments:

Clearly outline the services offered by each department within the local government.

Include contact information and operating hours for each department.

Provide downloadable forms and documents related to various services.

Community Resources:

List useful resources available to residents, such as public facilities, parks, libraries, and schools.

Include information about waste disposal, recycling, and other environmental initiatives.

Provide links to community organizations and support services.

News and Updates:

Maintain an up-to-date news section for official announcements and press releases.

Include a blog or newsletter feature to share relevant articles and updates about community development.

Calendar of Events:

An interactive calendar displaying local government events, public meetings, and community gatherings.

Allow users to add events to their personal calendars and receive reminders.

Public Engagement:

Implement a feedback form or survey to collect input from residents on various initiatives.

Provide a platform for public consultations and town hall meetings, both in-person and virtual.

Transparency and Finances:

Publish budget information and financial reports for public scrutiny.

Offer access to procurement details, contract opportunities, and bid results.

Emergency Information:

Include a dedicated section with emergency contact numbers, preparedness guides, and evacuation plans.

Display real-time alerts and updates during emergencies.

Language and Accessibility:

Ensure the website is accessible to all users, including those with disabilities.

Offer content in multiple languages to cater to the diverse community.

Technical Details:

Development Platform: The website will be built using modern web development technologies, ensuring responsiveness and compatibility across different devices and browsers.

Content Management System (CMS): We propose using a user-friendly CMS to allow easy updates and management of website content by local government staff.

Security: The website will be secured with SSL encryption to protect user data and maintain data privacy.

Hosting: Reliable and scalable hosting will be chosen to accommodate website traffic and ensure minimal downtime.

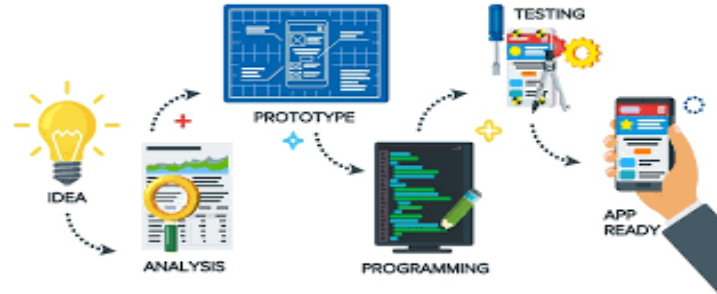

Conclusion:

Creating a comprehensive website for the local government will improve communication and engagement between the community and its governing body. By incorporating the key features outlined in this proposal, we aim to provide a valuable resource for residents, businesses, and visitors alike, fostering a stronger sense of community and transparency in local governance.

We look forward to collaborating with the local government to bring this vision to life and create a dynamic online platform for the benefit of all.

The said app will be designed and implemented by **CENTADESK**

TOOLS FOR DESIGN/DEVELOPMENT

DESIGN

HTML	PHP(Laravel)
CSS & (CSS FRAME WORK)	MYSQL
JAVASCRIPT	PHP MYSQL
JQUERY	AJAX
GRAPHICS TOOLS	JQUERY
DART(Flutter)	JAVASCRIPTetc

DEVELOPMENT

PROCESS AND TIMELINE

Our priority is your satisfaction. Therefore, we do all we can to make our project processes seamless and transparent. Below is a summary of processes and duration of this project:

PROCESS

TIMELINE

Feasibility Study	2 week (in progress)
Data collection	2 week (in progress)
Project Development	4 months
Deployment and Final Testing	2 week

PRICING FOR WEB/APP DEVELOPMENT

Item	Prices	Remark
	Cost NGN	
WEB LANDING PAGE		
API/BACKEND/ADMIN FOR (WEB)		
Design (BACK-END)	250,000	
USER SIDE Development	100,000	
Graphics work	50,000	
Database Design	50,000	
SUB TOTAL	₦450,000	
HOSTING		
Basic Web Hosting/Domain/SSL	100,000	(You can upgrade when your users start increasing)
SUB TOTAL	₦100,000	
Updates and Bug Fixes		(Based on negotiation)
Technical Support		(Based on negotiation)
	TOTAL	₦550,000

PAYMENT ACCOUNT

All payment should be made to company account:

Account Name: CENTADESK GLOBAL SERVICES

Account Number: 1225753962

BANK NAME: ZENITH BANK

PROJECT DEPLOYMENT/MAINTENANCE

- ✚ App development phase
- ✚ Application deployment
- ✚ Testing phases
- ✚ Training of staff and officers
- ✚ Chart reports for recommended officers at different categories
- ✚ Flexible development to accommodate changes and upgrades

MAINTENANCE

While maintenance is not included in the quoted fees, we will be available to address any basic questions you may have at any time in the future.

Additional maintenance and administration for said software has a fee depending on the complexity of the update and will become necessary every now and then to update modules that keep your app functional (when necessary).

MAINTENANCE POLICY

Cost of major changes to the software like plugging in a new module to the existing application and as well maintenance cost after 3 month of deployment and testing will be discussed.

PAYMENT TERMS AND CONDITIONS

We make our payment terms as flexible as possible, allowing our client to pay a commitment fee of 70% before the beginning of the project and the remaining 30% after project deployment.

MISCELLANEOUS

Additional features which are not included in the features as represented on the prototype will attract extra charges.

PROJECT PROCEDURE

Funding

Here the client funds the project for proper commencement.

Requirements Gathering and Documentation

In this phase of the software project we gather the project requirements including necessary data's, graphics and any other material and content for the software development.

Project Planning

During this phase, we will have project meetings with the client, as well as, any other staff needed to review design ideas, gather content, review layouts, and set requirements for software etc.

Proposed Software Map

Once the planning stage is complete, a software map will be developed and agreed upon.

Design

At this phase the software team starts work on the design of the software.

Implementation/Development

At this phase the software is fully developed and is fully functional.

Verification

Here our company and Client verify the readiness of the software to serve its said purpose.

Maintenance

Monthly maintenance will be carried out to ensure that the software is fully functional or as discussed and agreed upon after the first initial free 3 month maintenance period.

OUR PROFILE

ABOUT

In the current highly competitive and dynamic business environment, Information and Communication Technologies (ICT) are more than ever a critical enabler for an organization's success, since it constitutes a source of competitive advantage and an important tool in the effort to automate and streamline business operations.

A rapidly expanding ICT company in Nigeria, Centadesk provides organizations with professional ICT training, consulting services, and software development solutions. At Centadesk, we provide businesses specialized software and services with the goal of maximizing corporate value in the competitive digital market of today. We are renowned for our capacity to comprehend the various business requirements of our corporate and individual clients as well as for our aptitude to combine IT and communications technologies to effectively address these requirements. The fundamental strength of our business is the caliber and dedication of our ICT team.

VISION

Our vision is to become the most important organization on the continent by fostering a technologically advanced environment in Africa.

MISSION

- Create workable solutions for issues,
- Empower companies with individualized digital goods, and
- Integrate easily into product development processes.

Lightgates - Your School, in your palms!

- **Nine holes game.**

<https://play.google.com/store/apps/details?id=com.veritech.connel.nineholes>

This is a game that everyone played as a child. This amazing game comprise of both the "Nine Holes Game" and "Three Men's Morris Game". It is easy to play, hence can be played by everyone.

Nine Hole is a three in a row game for everyone. It has been widely played in England since the middle ages. It is traditionally played with holes (hence the name) and pegs.

- Features of this game(Nine Holes) includes;
 - 1, Nine Holes Game
 - 2, Three Men's Morris Game.
 - 3, Sounds and Music.
 - 4, Single player.
 - 5, Two Players (Same device).
 - 6, Players can choose the object of which they want to play with.
 - 7, Frame can also be changed, along with so many other optional settings
- **CampusHub** - is an E commerce platform specifically created for Nigerian students across Campuses. It was created to help students to give out their used stuffs or sell them at cheap prices to fellow students. Some of the stuffs like fan, home theater, academic materials, reading tables and chairs, generators, laptops, phones have been given out/sold/bought on the platform.
<https://play.google.com/store/apps/details?id=com.nistoresnaija.campushub>
- **QuickGo** - Supported Platforms: Android, iOS. We worked in a team of developers to build the QuickGo ride hailing system. The app was built from technologies including (but not limited to): Restful Api, Websockets, Google Maps

Integration, Payment Integration with Paystack, push notifications, etc. we built the entire app using flutter (Dart) to support Android and iOS operating systems.

- Roles: • Implemented designs using flutter • Consumed Restful API within app • Maps and Payment Integration • PlayStore and AppStore Publishing & Versioning. • App maintenance and updates Download Links:

Download QuickGo Android App --

https://play.google.com/store/apps/details?id=app.quickgo.passenger_app

Download QuickGo iOS App . – <https://apps.apple.com/ng/app/quickgo/id1543115616>

- **QuickGo** - Driver Supported Platforms: Android, iOS. Driver app for the QuickGo ride Hailing system. My Roles: • Design Implementation with flutter • Complete Functionalities Implementation • PlayStore and AppStore Publishing and Versioning. • App maintenance and updates Download Links:

Download QuickGo Driver – Android

https://play.google.com/store/apps/details?id=app.quickgo.driver_app

Download QuickGo Driver – iOS – <https://apps.apple.com/ng/app/quickgo-driver/id1544044365>

- **MedBuzz** - Supported Platforms: Android.

Worked alongside other flutter developers in the HNG internship to build the medbuzz app under strict time constraints. The app allows users keep track of Medications with timely notifications. The app uses technology such as local persistence using Hive DB and local notifications.

Roles: • Design implementation with flutter • Implementation of Medication tracking functionality and related Logics Download Links

Download MedBuzz – Android

<https://play.google.com/store/apps/details?id=com.incredible.medbuzz>

- **Spelling Bee** - is a fun plus educational game for both children and adults.

This game is designed to assist its players in learning English words and also to improve their vocabulary.

Spelling Bee contains over 500 English words which is further categorized in 72 game levels.

This amazing game consists of two different game types which includes the "Missing Letter Game" and the "Scrabble Game".

The features of this game includes;

1. Over 500 English words.
2. Sounds and Vibration which can be turned off.
3. Missing Letter Game.
4. Scrabble Game.

Please help promote my app by downloading, rating, commenting and shearing. It's a free game which you will enjoy playing. Thanks
